青山日本語キャンプ

AoYama Japanese Camp (AYJC) is a Japanese language camp provider, creating opportunities for Australian students of Japanese to interact with native and fluent speakers- as if they were visiting Japan!

AYJC program objectives:

-  Provide students with authentic experiences of Japanese culture and language
-  Encourage students to challenge themselves and to try new things
-  Assist students to develop the confidence and skills needed when communicating in Japanese
-  Give students the opportunity to interact with multiple native fluent speakers of Japanese
-  Cultivate deeper connections with peers through similar or mutual interests

Rather than traditional sit-down language lessons, students participate in a range of activities that encourage learning through DO-ing.

Activities are explained and run in Japanese, with plenty of visual and language prompts to enhance student understanding. Students are encouraged to step out of their comfort zone and challenge themselves- after all that is how real learning happens!

Camp activities give students have the chance to dress in traditional clothing, cook authentic dishes and play interactive games that are normally difficult to experience in a classroom or school setting.

AYJC camps are also a terrific way for students to prepare for future student exchange programs, school trips to Japan or language speaking exams.

Sample Activities

書道

Calligraphy

ゆかた・着物

Japanese Traditional Clothing

工作 (だるま作り)

Craft (Daruma making)

料理 (大福)

Cooking (Mochi Daifuku)

アニメ描きワークショップ
